WORLD MATH DAY

Our school is taking part in **World Math Day** which takes place on 7 March.

This is an exciting online challenge open to all Year 7,8,9 and 10 students who will be going up against students from all around the world.

From 200 countries and territories

What is World Maths day ?

World Math Day is the world's largest online Math competition hosted on the Live Mathletics game engine, where students from all over the world compete.

Participating students are required to complete 20 games on various levels of Live Mathletics, earning points by answering as many correct questions as possible alongside other competing students of the same age and ability level.

Each game on Live Mathletics runs for 60 seconds and students strike out of a game early if they answer 3 questions incorrectly.

During the 48 hour competition a leaderboard known as the 'Hall of Fame', records all scores and displays the top 100 students in each year group

Prizes and Awards

Students and schools taking part in World Math Day can win great prizes! A live digital Hall of Fame on the homepage will track the top scoring students and schools from right across the world.

At the end of the event, medals and trophies will be awarded to the top students and schools. Will your country have a World Math Day Champion?

Making the world a better place

You will answer maths questions, which will earn you UNICEF points. These will be converted into money to directly support education programs where resources are desperately needed.
