

## Home Learning Reading Support

To support you with your reading of Home Learning material and progression in reading and other literacy skills, The Bishop of Winchester Academy provides access to Read&Write and Lexia Power Up. Please find more information below, including how to access from home.

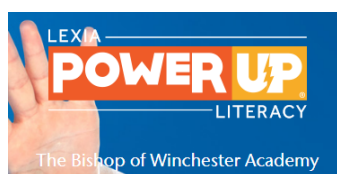

Great for all subjects and types of activities, the Read& Write toolbar offers support with everyday tasks like reading text out loud, understanding unfamiliar words, researching projects/assignments and proof-reading your work.

Access by downloading the installer here: <https://www.texthelp.com/en-gb/readwriteforedu/>

Choose your preferred platform (android, PC etc), download and then log into the software using your school email address and password.

Each function comes with a useful tutorial video to help you get the most out of the toolbar.

**Lexia PowerUp Literacy™** is a program for those readers who may find some aspects of reading challenging.

Regular use can accelerate the development of both fundamental literacy and higher-order thinking skills through adaptive learning paths, allowing students to set and manage their own goals and take ownership of their learning.

Find an engaging range of relevant, high-interest authentic texts, instructional and hook videos, polling questions, and game-based motivational elements.

Access using the link here: <https://www.lexiapowerup.com/> but mobile app also available from Google Play.

You will then need my email address: [rgi@tbowa.org](mailto:rgi@tbowa.org) when prompted for teacher's email.

To login use your **computer login number** that you use in school with password: **tbowa**

Please contact me at [richard.giddings@tbowa.org](mailto:richard.giddings@tbowa.org) if you have any questions or issues. Thank you.
