

Geography

A Level

Do you want to find out more about topical issues currently in the news such as flooding, coastal management, problems of rapid urbanisation and the environmental impact of energy production? Geography equips young people with an understanding of themselves and the world.

Course Overview

Unit 1: Physical Geography

Water and carbon cycles; Coastal systems and landscapes; Hazards.

Unit 2: Human Geography

Global systems and global governance; Changing places; Contemporary urban environments.

Unit 3: Geography Fieldwork Investigation

Students complete an individual investigation which must include data collected in the field. The individual investigation must be based on a question or issue defined and developed by the student relating to any part of the specification content.

How will I learn?

You will investigate geographical issues through a variety of teaching and learning styles ranging from independent research to group work and presentations.

You will be encouraged to read widely around the topics and contribute to class discussions

Where can I go after the course?

Careers: Conservation; Architecture; Agriculture; Environmental Health; Marketing; Meteorology; Sports and Recreation Management.

Further Education: Geography; Geology; Oceanography; Conservation Management.

Entry Requirements
