

# NHS

NHS the things you've done  
the patients you've healed  
The battles you've won

The virus has come **screaming with rage** **(personification)**  
But you don't sit around all day  
**You get up, help and all join in** **(power of three)**  
To save us from the state were in

On the front line there's many a human  
You stand and sing **like Lilly flowers blooming** **(simile)**  
Every day you put up a fight  
with PPE and a ton of might

I wrote this poem, to say thankyou  
To essential workers and MPs too  
And whenever the virus dare come near us  
We can always count on our NHS heroes
